

Notes:
 Capacitors C51, C56, ..., C77 are SMT 1206 mounted on bottom of circuit board
 SMT capacitor C78 needs to be soldered between the gate of Q6 and the grounded terminal of C40
 Change R3 and R9 to 4.99k if max soundcard line-out voltage less than 2.4 v p-p
 Band specific component vales for 40m/80m kit are shown on schematic sheets 1 and 2 see sheet 3 for 40m/30m kit and 160m kit
